LODGERS.

The number of lodgers at the police station is very large for a town of this size. While they are given nothing to eat, the fact that the station is well heated seems to encourage them to make this town their headquarters, and I would suggest to your honorable board that tools be purchased by the town and that these people be made to pay for their lodgings by labor on the streets, or the rigid enforcement of the Marston tramp law.

ANNUAL REPORT

OF THE

Chief and Clerk of Fire Department.

NEWMARKET, N. H., Feb. 15, 1906.

TO THE TOWN OF NEWMARKET:

In compliance with the law, requiring the Chief Engineer of the Fire Department to make an annual report to the town, the following report is respectfully submitted.

FORCE OF THE DEPARTMENT.

The regular force of the department consists of a chief and two assistant chief engineers, two hose companies of 16 men each, one hook and ladder company of 12 men, and a driver for hose wagon No. 3. Each company is allowed to have five substitute members, who, when acting as such, are paid for their services by their principals.

FIRE APPARATUS.

One hose wagon; one double runner hose pung; two two-wheel hose carts; one hook and ladder truck; 2650 feet 2½ inch rubber-lined, knit hose; 1000 feet 2-inch rubber-lined hose; nine flexible play pipes; two two-to-one Siamese connections; one one-to-two Siamese connection; four Callahan shut-off nozzles; four solid play pipes; three chemical extinguishers; two single hydrant gates; 32 spanners; seven hydrant wrenches; eight lanterns; two torches; two crowbars; 12 shovels; five hoes; four fire axes; three coats; 18 fire hats.

The Gleason & Bailey steel frame truck carries one 45-foot East Somerville extension ladder; one 26-foot, one 25-foot, one 24-foot and one 18-foot single ladders; one pull-down hook and chain; four hand hooks; two crotch poles; two fire axes; two crowbars; two sledges; 200 feet of rope; four lanterns; one signal lamp; two torches; one 13-inch gong. There are also held in reserve two 30-foot, one 25-foot and three roof ladders.

FIRE ALARM.

One 2000 lb. bell and striker, in steel tower; two 18-inch gongs; two 8-inch gongs; twelve fire alarm boxes; seven miles of wire, and the proper amount of battery to sustain the same.

APPARATUS.

Our apparatus stands practically as last year, and is in equally as good condition.

REPAIRS.

The repairs during the year were more numerous than last year. On examination, Station One was found to be in very poor condition and required shingling, painting and other general repairs. Extensive repairs had to be made on the Hook and Ladder truck and the Hose wagon. The steel tower required painting. The fire alarm system did not at

all times give perfect satisfaction, and the services of an expert were required several times. Changes had to be made in the line at J. E. Kent's stable and along the line of the Postal Telegraph Co. Several breaks in the line during the year were promptly repaired. The entire system is in excellent working order at the present time.

WATER SYSTEM.

This system includes 57 two-way hydrants. The water supply has been found ample for our needs and given us good pressure whenever wanted.

GENERAL REMARKS.

It will be seen by the clerk's report that the total amount of fire loss the past year was \$860; insurance paid on same, \$160. The balance, \$700, was paid by the Boston & Maine R. R., as a damage claim for brush fire caused by them.

The report also shows that the whole number of bell alarms was nine, there having been seven still alarms for chimney fires, where, by prompt work with the hand extinguishers, much property was protected.

In comparing this unusual small loss of property with the many thousand dollars' worth of property at hazard, some little credit must be given to our firemen. For better results, or more willing service, will be found nowhere.

MATTHEW T. KENNEDY,
Chief Engineer.

FIRE LOSSES AND INSURANCE.

Total number of alarms during the past fiscal year, nine. The total amount of loss was \$860. Amount of insurance, paid on account of property damaged or destroyed by fire, \$160.

FIRE RECORD.

Statement of details of fires and alarms, losses and insurance, as reported to the Clerk of the Board of Engineers by property owners and insurance agents.

DIRECTIONS FOR RINGING IN AN ALARM.

When a fire breaks out the person discovering it should immediately run to the box *nearest the fire*, break the glass in the front of the small key box which is on the side of the fire alarm box, take out the key, which is attached to a chain, unlock the fire alarm box, open the door and pull down the hook *as far as it will go*, then let go the hook. Stand by box to direct the firemen. Don't pull in an alarm for a fire seen at a distance or out of reach of the hydrant system, but notify some member of the department, who will give the proper alarm.

FIRE DEPARTMENT SIGNALS.

Second alarm, 8 blows, for reserve apparatus and call firemen.

2 blows after fire alarm indicates fire all out.

2-2-2. Engineers' call; companies assemble at stations and await orders.

3-3. Hose 3 call. For chimney fires, etc.

4-4-4. Call to Newmarket Manufacturing Co.'s hose company for assistance.

U. S. Observatory standard time, by Western Union Telegraph, one blow at 12.30 P. M., daily.

Hook and Ladder Co. and Hose 3 will answer all box calls.

Hose 1 will answer boxes 12, 21, 32, 34, 41, 45 and 49, with apparatus.

Hose 2 will answer boxes 5, 7, 21, 63, 65 and 82, with apparatus.

PUBLIC LIBRARY.

. REPORT OF TRUSTEES.

During the year just past nothing of special note has taken place relating to the management of the library. The trustees, believing that a public library should be such in the fullest sense of the term, have, during the past year, purchased a number of books printed in the French language. If these books meet the demands of the patrons of the library, more will be purchased. The building is much out of repair, and we note with pleasure that an appropriation will be asked for at the next election, to be used with an equal amount donated by the Newmarket Manufacturing Co., to put the building in first-class condition. We most respectfully ask the earnest co-operation of the good people of Newmarket, that our efforts may be crowned with success.

Respectfully submitted,

LOUIS P. BEAUDET,

Secretary.

SCHOOL TREASURER'S REPORT.

As the financial year of the school district does not close until the last of March it is impossible to give a complete Treasurer's report. But for the information of those interested, and that our schools may receive sufficient financial support, by appropriations at the annual town meeting, a brief statement is made by the Treasurer, showing the receipts and expenditures up to March 1st. The balance now in the hands of the Treasurer will be needed to pay the teachers, janitor and other bills due at the end of the present term.

The regular school report, to be issued at the end of the school year, in August, will contain a full itemized financial statement.
